Attachments: SMM 114 TO rev (SMMNEC comments).DOC

Attorney Olivier,

As we discussed yesterday, attached please find SMM New England Corporation's comments regarding EPA's draft revised Testing Order in the attached track changes word document.

Please let us know if you have any questions or would like to discuss anything further.

Thank you,
Jon

Subject: SMM New England: Revised draft testing order

Earl and Jon – I attach a draft testing order, in track changes mode. It addresses the issue of the term “total enclosure” by eliminating the word “total.” And it incorporates a different approach to scheduling the test: instead of taking place no later than 60 days after the pre-test meeting, the timing of the test would be based on provisions to be incorporated in the approved protocol in light of anticipated permit and other preparation requirements.

No changes are contemplated to the referenced Attachment A.

I understand you hope to get a quick reaction from Trinity.

Have a good weekend.

Tom
